

insereAdjacencias

leFicheiroBinario

CriarAdj

```
graph LR; A[insereAdjacencias] --> C[CriarAdj]; B[leFicheiroBinario] --> C;
```

The diagram illustrates a functional dependency where two separate functions, 'insereAdjacencias' and 'leFicheiroBinario', both serve as inputs to a single function, 'CriarAdj'. The input functions are represented by white rectangular boxes, while the target function is a gray rectangular box. Blue arrows indicate the flow of data or control from the input functions to the target function.
