

CriaMapaCasas

LerListaFicheiro

LimpaMemoria

```
graph LR; A[CriaMapaCasas] --> D[LimpaMemoria]; B[LerListaFicheiro] --> D;
```

The diagram illustrates a control flow where two separate functions, 'CriaMapaCasas' and 'LerListaFicheiro', both lead to a common function 'LimpaMemoria'. 'CriaMapaCasas' is positioned above 'LerListaFicheiro', and both are connected to 'LimpaMemoria' by blue arrows pointing from left to right. 'LimpaMemoria' is a gray box, while the others are white.
